Join us at David Ashley's studio to scout out some fantastic vintage pointed pen nibs* that he has for sale. Whether you currently do pointed pen work or are curious about using pointed nibs for scripts other than Copperplate, you will find some diamonds in the rough here.... So bring your nib holder, some of your favorite papers and ink (some will also be provided), and give these vintage beauties a chance for a spot on your calligraphy team! David Ashley and Tess Vonfeldt-Gross will be on hand to demo some of their uses, as well.

* Most of these nibs are no longer readily available from standard calligraphy/art supply sources, so grab 'em while you can. Along with nibs for sale, there might be other surprises!
